240 Single Sided Swingarm Kit

This is one of the coolest sport bike modifications on the market. The reinforced tubular Chromoly billet construction allows for your choice of a Performance Machine, or RC Components custom 18" x 8.5" rear wheel with a 240mm Pirelli Diablo tire! The kit comes complete with matching front wheel, brake lines, chain and everything needed to assemble. These swingarms are not only for awesome looks but they are engineered to be strong and durable as well. Manufactured from Chromoly and Aircraft quality billet aluminum, this swingarm is measured straight by G.M.D. Computrac computers within the tightest of tolerances. The swingarm is available in 2", 4" and 6" over configurations and in raw, triple coated show quality chrome, or powder coat finish. In stock now! Call our sales department to have yours custom built today!

330 Big Wheel Kit

This Roaring Toyz Phat Tire Rear End Conversion Kit is a true Bolt-On kit that requires no cutting, grinding or welding. The unique Jackshaft design allows for a centered 17" x 12" custom rear wheel with a Avon Venom 330MM Tire. The kit comes complete with your choice of PM or RC Components matching wheels, brake lines, chain and everything needed to assemble. The swingarm is available in eight to twenty inches over configurations and in raw, triple coated show quality chrome, or powder coat finish. Our swingarms are engineered not only for awesome looks but are designed to be one hundred percent functional as well. Not only do we stand behind our line of swing arm packages, we ride them every day! Call our knowledgeable sales department to have yours custom built today!

- Made In USA with Aircraft Quality Billet Aluminum

- Cutting Edge Designs
- Constructed out of Lightweight Aluminum
- Available in Show Quality Chrome or Black Contrast Cut

O.S.D 330 Big Wheel Kit

Hot off the press! This is the newest innovation in custom sport bikes! This "Out Side Drive" kit uses a 17" x 12" rear wheel with a 330mm Avon Venom tire and accomplishes an innovative clean custom look with out the need of a jack shaft! All of that magic happens up by the front sprocket. Our R&D team have developed a trick front sprocket system that slightly off-sets the front sprocket, thus allowing a direct drive chain to arrive at the rear sprocket. This is all hidden behind the front sprocket cover and accomplishes a super clean and trick custom look. From the riders point of view, there isn't even a noticeable difference in rear set position or ride comfort. This kit is available in 4" - 8" or 8"-12" over configuration and in raw (paintable), powder coated or show quality chrome finish. Choose your own RC wheel to dress out this trick kit as it comes with everything you need to be rolling Phat! Be the envy of everyone in your crew and be the first one on your block to get one. Call for availability and pricing & order yours today!

- No Jack-Shaft!
- Made in the U.S.A.
- Hot 330mm Phat Tire
- Newest Innovation on the Market
- Choice of Finish: Raw (Paintable), Powder Coated or Show Quality Chrome

360

The 360 Big Wheel Kit

This is the ultimate in Sport Bike Customization! This kit boasts a 18" x 13" rear wheel with a Monster 360mm rear tire! What more can you say than Wow! This is a real head turner. All of this is made possible by the exact machining of the off-set gear, better known as the "jack-shaft." This allows this monster tire to be precisely lined up and to keep you riding straight! This kit comes with a wide variety of options. Your choice of RC Components matching wheels and three different finishes for your phat swingarm just to name a few. This hot modification is available for most late model sport bikes and is a show stopper! Did I mention, not only does the phat tire kit look great, it is strong and durable as well! Our kit is proven to handle up to 300 rwhp! That is a lot of rubber on the road! Don't just stand there and drool... Custom order yours today! Items in stock and shipping daily! Call for info.

- Made in the U.S.A.
- Raw (paintable), Powder Coated & Chrome
- From 12" to 16" over configurations
- Freakin Awesome!
